

CPSC FACILITIES COVID-19 SCREENING

Online version available at <https://www.cpsc.gov/screening/>

Today's Date

PLEASE READ EACH QUESTION CAREFULLY

(footnotes can be found on page 5)

1.

Regardless of your vaccination status, have you experienced any of the symptoms in the list below in the past 48 hours¹?

IMPORTANT: ANSWER "YES" EVEN IF YOU BELIEVE THE SYMPTOM(S) IS BECAUSE OF SOME OTHER MEDICAL CONDITION (FOR EXAMPLE, ANSWER "YES" IF YOU HAVE A RUNNY NOSE BECAUSE OF ALLERGIES).

- fever or chills
- cough
- shortness of breath or difficulty breathing
- fatigue
- muscle or body aches
- headache
- new loss of taste or smell
- sore throat
- congestion or runny nose
- nausea or vomiting
- diarrhea

YES

Access to CPSC Facilities Not Approved

NO

Proceed to Question 2

2.

Are you isolating or quarantining because you tested positive for COVID-19 or are worried that you may be sick with COVID-19²?

YES

Access to CPSC Facilities Not Approved

NO

Proceed to Question 3

3.

Proceed to Question 3A, 4A, or 5A, Based on your Vaccination Status:

3A: FULLY VACCINATED³ and UP TO DATE⁵ with all recommended COVID-19 vaccines, including any booster dose(s) if/when eligible

OR

Have you RECOVERED FROM A DOCUMENTED COVID-19 INFECTION in the last 3 MONTHS? (ANSWER QUESTIONS ON PAGE 2)

4A: FULLY VACCINATED³ and NOT UP TO DATE⁵ with all recommended COVID-19 vaccines, including any booster dose(s) if/when eligible

OR

Have you RECOVERED FROM A DOCUMENTED COVID-19 INFECTION in the last 3 MONTHS? (ANSWER QUESTIONS ON PAGE 3)

5A: NOT FULLY VACCINATED³ or PREFER NOT TO ANSWER (ANSWER QUESTIONS ON PAGE 4)

Everyone Answers

If you are **FULLY VACCINATED³** and **UP TO DATE⁵**
with all recommended COVID-19 vaccines,
including any booster doses(s) if/when eligible

OR

Have **RECOVERED FROM A DOCUMENTED**
COVID-19 INFECTION in the last 3 Months,
PROCEED TO QUESTION 3A

3A.

Have you been in close physical contact
in the last 10 days with anyone who is
known to have COVID-19⁶?

YES

Proceed to
Question 3C

NO

Proceed to
Question 3B

3B.

Have you traveled internationally
in the last 10 days⁸?

YES

Access to CPSC Facilities
Approved with Conditions¹⁶

NO

Access to CPSC
Facilities Approved

3C.

Did you have a negative COVID-19
test taken at least 5 days after your
last exposure to the close contact⁷?

(If it hasn't yet been 5 days since your
last exposure, select "YES")

YES

Proceed to
Question 3D

NO

Access to CPSC
Facilities Not Approved

3D.

Have you traveled internationally
in the last 10 days⁸?

YES

Access to CPSC Facilities
Approved with Conditions¹⁶

NO

Access to CPSC Facilities
Approved with Conditions¹⁸

I certify that my responses
are true and correct

Fully Vaccinated³ and Up to Date⁵

¹⁶Conditional Access:
• Get tested 3-5 days after travel
• If you develop symptoms, immediately leave CPSC facilities, isolate, and consult with your healthcare provider

¹⁸Conditional Access:
• Wear a mask in CPSC facilities for 10 days following exposure or until your test result is negative
• Get tested 5 days after exposure
• Get tested 3-5 days after travel
• If you develop symptoms, immediately leave CPSC facilities, isolate, and consult with your healthcare provider

If you are **FULLY VACCINATED³** and **NOT UP TO DATE⁵**
 with all recommended COVID-19 vaccines,
 including any booster doses(s) if/when eligible
OR
 Have **RECOVERED FROM A DOCUMENTED**
COVID-19 INFECTION in the last 3 Months,
PROCEED TO QUESTION 4A

4A.

Not Fully Vaccinated³ or Prefer Not to Answer

¹⁶Conditional Access:

- Get tested 3-5 days after travel
- If you develop symptoms, immediately leave CPSC facilities, isolate, and consult with your healthcare provider

¹⁷Conditional Access:

- Wear a mask in CPSC facilities for 10 days following exposure or until your test result is negative
- Get tested 5 days after exposure
- If you develop symptoms, immediately leave CPSC facilities, isolate, and consult with your healthcare provider

¹⁸Conditional Access:

- Wear a mask in CPSC facilities for 10 days following exposure or until your test result is negative
- Get tested 5 days after exposure
- Get tested 3-5 days after travel
- If you develop symptoms, immediately leave CPSC facilities, isolate, and consult with your healthcare provider

I certify that my responses
are true and correct

¹If you have had any of these symptoms in the last 48 hours, DO NOT physically return to the workplace until symptoms have been improving for more than 48 hours.

²If you have concerns about being exposed to or sick with COVID-19, please stay home and self-quarantine or isolate. Read more about when you should be in isolation or quarantine. (<https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine.html>)

³To be considered fully vaccinated with the primary series, you must be ≥2 weeks following receipt of the second dose in a 2-dose series or ≥2 weeks following receipt of one dose of a single-dose vaccine. Please see Stay Up to Date with Your Vaccines page (<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html>) for more info about being fully vaccinated.

⁴Travel is defined as any trip that is overnight AND on public transportation (plane, train, bus, Uber, Lyft, cab, etc.) OR any trip that is overnight AND with people who are not in your household

⁵Up-to-date (<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html>) means a person has received all recommended COVID-19 vaccines, including any booster dose(s) when eligible. If it has been longer than 5 months since you completed your primary series of Pfizer-BioNTech or Moderna OR it has been longer than 2 months since you completed your primary series of J&J's Janssen, and you have not yet received a booster, then answer "No."

⁶If you have been in close contact with someone with COVID-19 and you are up-to-date with your COVID-19 vaccines, you should get tested 5 days after your exposure and you should wear a mask indoors for 10 days, even if you don't have symptoms. Read more about when you should be in isolation or quarantine. (<https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html>).

⁷Individuals who are up-to-date with their COVID-19 vaccines and had a close contact

(<https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html>) must get tested at least 5 days after the last contact with someone with COVID-19.

⁸Individuals who are up-to-date with their COVID-19 vaccines should get tested 3-5 days after international travel

(https://www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel-during-covid19.html#anchor_1634925927097), and should self-monitor for symptoms, but do not need to self-quarantine

⁹If you have been in close contact with someone with COVID-19 and you are NOT up-to-date, you should stay home and quarantine for at least 5 full days, get tested at least 5 days after your exposure, and you should wear a mask indoors for 10 days, even if you don't have symptoms. Read more about when you should be in isolation or quarantine. (<https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html>).

¹⁰Individuals who are not up-to-date with their COVID-19 vaccines

(https://www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel-during-covid19.html#anchor_1634925927097) should stay home and quarantine for at least 5 full days after travel, get tested 3-5 days after travel, and self-monitor for symptoms.

¹¹Individuals who are not up-to-date with their COVID-19 vaccines and had a close contact

(<https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html>) must stay home and quarantine for at least 5 full days and get tested at least 5 days after your last exposure with someone with COVID-19.

¹²CPSC staff who are not yet up-to-date must email the results of a negative PCR or professionally proctored antigen test within the week that they are coming on-site to a CPSC facility or interacting with the public on behalf of CPSC to HRManagement@cpsc.gov.

Visitors to CPSC facilities who are not yet up-to-date must provide the results of a negative PCR or antigen test* (electronic or hard copy) prior to coming to a CPSC facility. The test must be taken within three days of coming to a CPSC facility.

*Antigen test must be professionally proctored (meaning, a medical professional must watch you take the test and provide you with an electronic or hard copy result).

¹³If you have been in close contact with someone with COVID-19 and you are NOT up-to-date with your COVID-19 vaccines, you should stay home and quarantine for at least 5 full days, get tested at least 5 days after your exposure, and you should wear a mask indoors for 10 days, even if you don't have symptoms. Read more about what to do if you've had a close contact and are not up-to-date on your vaccinations (<https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html>).

¹⁴Individuals who are not up-to-date with their COVID-19 vaccines and had a close contact (<https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html>) must stay home and quarantine for at least 5 full days and get tested at least 5 days after the last contact with someone with COVID-19.

¹⁵Individuals who are not up-to-date with their COVID-19 vaccines

(https://www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel-during-covid19.html#anchor_1634925927097) should stay home and quarantine for at least 5 full days after travel, get tested 3-5 days after travel, and self-monitor for symptoms.
